

Dear

Thank you for inviting the to participate in this consultation. The survey was well designed and it was easy for understanding and participation. It's incredible to see your effort to continuously improve the processes and regulations for Incorporated Associations in NSW.

has been an incorporated association since . Strong regulations under the Act has ensured strong governance, accountability and sustainability of our organisation. The Minister for Customer Service Victor Dominello has also been a regular (and supportive) guest at our key events over the last few years.

Last month, we concluded our AGM 2022, with elected as our Secretary and the new Public Officer. We will continue to play our part as a responsible incorporated association that complies with the regulations.

Lastly, I would like to take this opportunity to propose that Fair Trading through its Community Engagement team provides training and education resources to equip all office bearers of incorporated associations with necessary knowledge.

Thank you once again.

Regards,

---
