

Hi Officer

Paying rent \$550.

My real estate agent increase rent by \$50 in February 2023. Now agent is changed, they have increased the rent to \$630 and also want us to sign a contract for 6 months. We are afraid that the landlord may increase the rent again after 6 months. Is there a limit to put up the rent only once a year. As this is not fair on the tenants. As we were told if you cannot pay \$630 a week you can vacate the house and it is not easy to find a rental home right now.

My pay is not very high and paying this much rent along with all the other expenses is really difficult.

Thank you  
Kind Regards
