

Its come to my attention today 15/08/2023 that for renters they are concidering a a limit for landlord and that limit is no more than 1 rent rise per year , that year is lease to lease . Rediculouse becouse it already is in place that they cant do more than 1 rent price rise a year. so they are wasting there time. The limit we need is in the form of a % per year or percentages. No more than x % of there current rent cost.
